

Open up the world of sensory play – the perfect start for your vision impaired child

VICTA's Early Years Sensory Discovery packs are designed for children aged 0 to 4 years and are packed with specially curated sensory items.

We know it can be overwhelming at times and hard to know where to begin when supporting your child. Our packs are a fun way to play together and the accompanying online play ideas will get you off to a great start.

Find out more & apply for a baby or toddler pack as a parent or as a professional:
